DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-7, drawn to a method of forming a P-N junction, classified in class 438, subclass 312.

II. Claims 8-16, drawn to a method of doping a single crystal semiconductor substrate, classified in class 438, subclass 289.

III. Claims 17-21, drawn to a method of forming a MOS, classified in class 438, subclass 309.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II & III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions:

-I. is unrelated to II. & III. due to reason different mode of operation because diffusion and implanting are different.

-II. is different from III. As subcombinations II. has a specific way of amorphizing and has separated utility, such as forming a well rather than a source / drain, well or emitter or base or collector or any doped region.

-III. is no specific way of amorphizing.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2813

A telephone call was made to Thomas Eschweiler on 6/26/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yennhu B. Huynh whose telephone number is 703-308-6110. The examiner can normally be reached on M-F 8.30AM-7.00PM.
